### **How to Comment**

The Tennessee Department of Environment and Conservation (TDEC) is requesting public comments on the permit actions. Obtaining a broad range of facts and opinions on Agency actions is one of the best ways to ensure quality decisions. Persons wishing to comment on the proposed actions may submit comments in writing to the Mining Section at the Knoxville Environmental Field Office, Attn: Public Notice Coordinator; by fax (865) 594-6105; or by e-mail [Dennis.Conger@tn.gov](mailto:Dennis.Conger@tn.gov). The Division must receive your comments before the close of the comment period (see page 1).

### **How to Request a Public Hearing**

Interested persons may request in writing that the Director of the Division of Water Resources hold a public hearing on any application. The Division must receive your request before the close of the comment period. You must indicate the interest of the party filing it and the reasons for the hearing. When there is significant public interest for a hearing, the Division will hold a hearing in accordance with *Rule 0400-40-05-.06 (12)*. A separate public notice will announce the public hearing.

### **How the Department Will Proceed**

The Director of the Division of Water Resources will determine the final permit action after considering comments submitted during the comment period, the hearing record, if any, and the requirements of Federal and State acts and regulations.

### **To Obtain Permit Details**

Draft permits contain Antidegradation Determinations and Rationales that address information concerning the foundation for the Division's decisions. Copies of the applications, draft permits, and supporting documentation are in the permit files maintained at the Knoxville Environmental Field Office, Mining Section. There is a nominal fee for copying. The files are available for public inspection during normal visiting hours. Please email [Kara.Blevins@tn.gov](mailto:Kara.Blevins@tn.gov) or call (865) 594-5460 to schedule an appointment for the review.

### **State of Tennessee Antidegradation Policy**

Tennessee's Antidegradation Statement is in *Rule 0400-40-03-.06* of the Tennessee Department of Environment and Conservation. The primary purpose of the Antidegradation Policy is to establish a greater level of protection for high quality waters. Some high quality waters are in near-pristine condition. Others are determined to be high quality due to specialized uses and/or unique features.

Generally, there are two types of high quality waters. Outstanding National Resource Waters (ONRWs) receive the greatest level of protection. The Board of Water Quality, Oil and Gas

designates these waters. New discharges or expansion of existing discharges cannot degrade existing water quality.

The Department identifies other high quality waters known as Exceptional Tennessee Waters (ETWs) and protects against their degradation. The Department may allow some degradation if the Department deems it economically and socially necessary.

Non-Exceptional Tennessee Waters refer to surface waters that do not have the identification and/or designation as high quality. These waters must achieve and maintain Tennessee's Water Quality Standards.

### **State of Tennessee Policy of Non-Discrimination**

Pursuant to the State of Tennessee's policy of non-discrimination, the Tennessee Department of Environment and Conservation does not discriminate on the basis of race, sex, religion, color, national or ethnic origin, age, disability, or military service in its policies, or in the admission or access to, or treatment or employment in its programs, services or activities. You may direct any Equal Employment Opportunity/Affirmative Action inquiries or complaints to the EEO/AA Coordinator, Office of General Counsel, William R. Snodgrass - TN Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243-1102 or telephone 1-888-867-7455.
